

PLEASE do not take away KLove's local radio station in my hometown! It is a wonderful service to hear praise and worship each day and know that this station is leading people to God. With so much negative media/imagery on TV and Radio nowadays this is a wonderful asset. If it is taken away from my local community I will be very disappointed, I love this station and listen to it daily! It is a good positive influence for so many people that are looking for something truly real in our community and area.
